

## SUMMARY

Construction of a new 375-ft. waterslide attraction in an existing and operational theme park. Scope included clearing and grading site for installation of new underground aquatics supply, return and filtration systems, along with structural foundations for the owner-furnished slide. Level 10 also built a new mechanical service yard for the filtration and aquatic control equipment, added new hardscape and guardrails, and updated the landscaping.

### AQUATICA TAUMATA RACER

375-ft. waterslide built in occupied theme park.
