

ROB MELINAUSKAS PROJECT EXECUTIVE

“Level 10 provides skilled resources in both preconstruction and implementation. Level 10 executives are dedicated to engage in the project from inception through closeout and provide industry-leading service.”

Rob has a depth of construction experience in both operations and estimating. With over 25 years of experience, he has managed and lead many technical projects for high tech, professional services, and OSHPD projects. Rob embraces fast-tracked projects that require a creative approach to implementation to meet the client’s timeline and budgets.
